# Christian Genesis A. Diomampo

**Senior Full-Stack Developer - WordPress, WooCommerce, React / Next.js**

Pasig City, Metro Manila, Philippines (remote, GMT+8)
chrisgen19@gmail.com | cgdiomampo.dev | linkedin.com/in/cgdiomampo | github.com/chrisgen19

## SUMMARY

Senior Full-Stack Developer with 15+ years building and maintaining WordPress, WooCommerce, Shopify and Next.js/React applications for Australian and US companies. Currently maintain 20+ production sites, build headless CMS platforms, custom plugins and APIs, and handle DevOps across AWS, Azure, Coolify and Vercel. Lead and assign work to other developers, with a strong focus on page speed, SEO and clean, maintainable code.

## CORE SKILLS

- **Frontend:** HTML5, CSS3/Sass, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, jQuery
- **Backend:** PHP, Laravel, CodeIgniter, Node.js, REST APIs, MySQL, PostgreSQL, Prisma
- **CMS & E-commerce:** WordPress (custom themes and plugins), Elementor, Divi, Gutenberg, WooCommerce, Shopify (Liquid), Builder.io (headless), Stripe, MemberPress, Magento
- **DevOps & Hosting:** AWS, Azure, DigitalOcean, Vercel, Coolify, Docker, GitHub Actions, SiteGround, Linux/Bash via SSH
- **Performance & SEO:** Page-speed optimisation, Core Web Vitals, technical SEO
- **Tools:** Git (GitHub, Bitbucket), Jira, ClickUp, Figma, Adobe XD, Photoshop, Claude Code (AI-assisted development)

## PROFESSIONAL EXPERIENCE

**Senior Full-Stack Developer**, Access Group Australia (remote) | Jun 2025 - Present

- Maintain 20+ production WordPress websites, covering updates, fixes, new features, SEO and page-speed optimisation.
- Built a headless CMS platform with Builder.io, Next.js, TypeScript and Tailwind CSS.
- Developed internal React applications for lead and UTM tracking, plus an automated scraper tool.
- Ship Next.js applications backed by PostgreSQL and Prisma, deployed with Docker, Coolify, Vercel and GitHub Actions CI/CD.
- Build e-commerce sites from scratch to launch and plan and assign development tasks to other developers on the team.

**Senior Full-Stack Developer**, Hybrid Anchor (remote) | Feb 2025 - Jun 2025

- Built WordPress websites from scratch to launch, converting Figma designs into custom themes and templates.
- Developed an e-commerce and membership platform with WooCommerce, Stripe and MemberPress.
- Built custom front-end components with TypeScript and Tailwind CSS, and optimised sites for SEO and page speed.
- Managed DevOps on SiteGround servers and GoDaddy domains, and assigned tasks to other developers.

**Senior Full-Stack Developer**, Interactive Education Concept, Inc. (Driverz, US) | Mar 2022 - Nov 2024

- Built custom WordPress plugins and page templates from Figma designs as PHP and senior frontend developer.
- Built a custom web application and the APIs connecting it to Shopify and WordPress, using TypeScript, Tailwind CSS, PostgreSQL and Prisma.
- Developed Shopify themes and transactional email templates.
- Managed DevOps on Azure and AWS with Docker, Coolify, Vercel and GitHub Actions CI/CD, and optimised SEO and page speed across company sites.

**Senior WordPress / Frontend Developer**, MyImprov via Emapta (US client) | Jul 2019 - Feb 2022

- Converted Figma designs into WordPress templates, with custom Elementor, Divi and Gutenberg development.
- Built React and Next.js frontends, plus the APIs behind a custom web application and a mobile app.
- Developed Shopify themes, optimised sites for SEO and page speed, and handled DevOps and server management.

**Senior Full-Stack Developer**, Outdoor Urban Transit / Follow (Australia) | Sep 2018 - May 2019

- Developed production WordPress plugins and add-ons, built web applications with Laravel, and managed Linux servers on AWS and DigitalOcean.

**Senior Full-Stack Developer**, BoomLabs via Emapta (Australian client) | Oct 2017 - Aug 2018

- Built pixel-perfect HTML5 layouts from mockups and developed WordPress plugins and add-ons, delivering projects to strict deadlines in an agile team, and administered Linux systems on AWS.

**Senior Web Developer / PHP Senior Programmer**, Creagaia Inc. (formerly Argumenta, Denmark) | Mar 2013 - Jul 2017

- Built hospital, classified ads and ticketing systems with CodeIgniter and Laravel, plus Laravel APIs for mobile apps.
- Developed WordPress, WooCommerce and Magento sites, and managed IIS web servers and large database migrations.

**Earlier roles** | 2007 - 2013
PHP, WordPress, Magento and Flash development at E-trader Inc. Philippines, Symmetri Designs Solution, Happy Oranges and MIW Design Studio, including an interactive jewellery customiser built with PHP Imagick/GD and Magento.

## EDUCATION

B.S. Information Technology, STI College (Crossing branch), Pasig City | 2005 - 2009
